Happenings in and Around Frank

A. V. Lang went to Calgary last week end.

T. G. Harris, of Moose Jaw, was in town on Tuesday.

R. S. Garret came down from Crén. brook on Monday.

H. E. Breckenridge came up from Lundbreck last Friday.

H. P. Oland of Claresholm spent several days in town this week.

E. Morino is undergoing a treatment for rheumatism at the sulphur springs.

Mrs Ben MacDonald, of Pincher Creek spent the week end in town.

C. Keller of Hartford and G. E. Nity of Brooklyn, N. Y., spent Monday at the Sanatorium.

Mr. and Mrs. J. B. Schmidt, of Toronto spent the week end at the Rocky Mountain Sanatorium.

H. Baker came up from Bow Island on Monday. Mr. Baker reports that work on the big gas plant there is progressing.

The basket social arranged by the young ladies of the Methodist church proved a remarkable success, and goodly figures were realized.

Lame back is one of the most common forms of muscular rheumatism.

A few applications of Chamberlain's Liniment will give relief. For sale by all dealers.

Rev. W. T. Young, of the Methodist church, will leave next week to spend Thanksgiving with his friends and college chums of Alberta University at Strathcona.

The officials of the Eastern Township Bank, who are touring western Canada, came down from Coleman on Sunday to view the mine, and were very much interested in the general appearance of this town.

Mr. and Mrs. J. W. Gardner came in from North Fork on Tuesday and left on Wednesday for Elmworth.

McGarriner and his brother, Gemel, own large and valuable land deposits near Burnis and considerable work has been done on them this season.

There are 20,000,000 cigars consumed daily in the United States.

Recent statistics show that 332 centenarians at present are alive in Bulgaria, of whom 188 are women.

Hungarian Miner Dies at Burnis

The sudden death of Joe Kujanik, a Hungarian miner took place at Burnis on Thursday morning last.

Kujanik had been illing for some time but his condition was not considered serious. About 8 a.m. he left his dwelling house and after being away for about an hour his friends became uneasy about him and a search ensued.

At 9 a.m. his lifeless form was found in a small outhouse. Coroner Pinkney was called in to investigate but he did not consider an inquest necessary.

Dr. Ross, who attended the unfortunate man during his illness and who was on the scene shortly after the death occurred, declared that death was due to tumor on the brain and to heart failure. Funeral took place at Passburg on Friday under the auspices of the United Mine Workers of America, of which society the deceased was a member. Kujanik was 36 years of age and came to Burnis about eight months ago.

There are 20,000,000 cigars consumed daily in the United States.

Happenings in and Around Cowley

McIvor Brothers started the framework of their new store this week and expect to have it completed by Nov. 30th.

A concert was held last week in the Cowley opera house, under the auspices of the Church of England, and proved a great success.

H. D. MacMillan, proprietor of the Cowley Hotel, has been ill for some time, and his illness necessitated his going to Lethbridge to consult a specialist. We hope for his speedy recovery.

W. G. Askey has added a well-stocked lumber yard to his business here, which is considered a valuable addition as the growing of the town fully warrants an immediate lumber supply.

Owing to recent bad weather threshing operations were considerably tied up, but last week work was resumed with a vigor, and from different points we learn that the crop is of a high average, some fully 30 bushels to the acre.

Joshua Kran's new store is being framed and soon will place its commanding appearance among the structures of business street.

Work had been somewhat delayed through a cave-in which occurred when excavating for the basement and foundation. Treedy Bros. are contractors and will rush work to completion.

You are not experimenting on yourself when you take Chamberlain's Cough Remedy for a cold as that preparation has won its great reputation and extensive sale by its remarkable cures of colds, and can always be depended upon. It is equally valuable for adults and children and may be given to young children with implicit confidence as it contains no harmful drug. Sold by all dealers.

The members of the "Western Star" Lodge, No. 311, Sons of England Benefit Society, are arranging for a concert to take place on the night of November 2nd. Committees have been formed and some of the amateur stage artists are practicing a comic sketch, which will please all who have the opportunity of attending. Refreshments will also be served.

The cattle yard here is being enlarged by the C.P.R. and a new set of cattle scales will be installed by the town. Cowley is considered the most central point for cattle shipments for the district, and now cattle have to be brought in from the Creek and other points for shipment here. In fact there are more cattle and horses raised in our immediate vicinity than in any other part of Southern Alberta.

F. M. Fowler and wife arrived here on Friday from High River, whither they had driven by horse and buggy about two months ago.

The trip, which covers about 130 miles each way, was very interesting both going and returning, and the experience of the drive was a novel one. Fine weather was met with the whole trip through and Mr. and Mrs. Fowler had the pleasure of passing through the richest of the Alberta grain belt, and witnessing the waving fields when going and the harvesting in full swing on their return journey. They continued on to their home in Passburg in the evening.

Biliousness is due to a disordered stomach. Chamberlain's Tablets are essentially a stomach medicine, intended especially to act on that organ, to cleanse it, strengthen it, tone and invigorate it, to regulate the liver and to banish biliousness positively and effectually. For sale by all dealers.

Happenings in and Around Bellevue

Mr. Vere is building a fine house and stable at Passburg.

James Lindsay is outside foreman of the mine at Chisnook.

Harry Higgins has brought his family to town and will locate here permanently.

Mrs. Cawthorn has returned to the camp after a visiting trip to the South Fork.

Charles Mansfield, late constable of the R.M.V.M.P., has secured his discharge from that body and will accept a position with the West Canadian Collieries Company.

Chas. O'Brien, M.P., addressed a large gathering in the Socialist hall on Monday afternoon. He outlined the materialistic interpretation of history and how to measure value, in a masterly way. The general consensus of opinion is that Charlie is improving both as a speaker and as a master of his subject.

Don't trifle with a cold is good advice for prudent men and women. It may be vital in case of a child. There is nothing better than Chamberlain's Cough Remedy for coughs and colds in children. It is safe and sure. For sale by all druggists.

A somewhat serious accident occurred on Monday evening when a team of ponies, being driven by an Italian from Burnis, lapsed at the top of the station hill. The driver was thrown out and rather shaken up but escaped miraculously with only a gash over one eye and some bruises.

He was taken to the hospital where his wounds were dressed by Dr. McKenzie, and was removed to Burnis the next morning. The team after dashing through the town were stopped at the rear of the school-house without any further damage being done.

There are 20,000,000 cigars consumed daily in the United States.

Thomas Frayer
Retires from Council

Many of those who have the best interest of the town of Blainmore at heart and who have seen the "Hub of The Pass" prosper under the regime of Mr. Thomas Frayer, will regret with real sincerity that that gentleman has decided to not allow himself to be a candidate for mayor in the forthcoming elections. Mr. Frayer has perhaps done more than any other man to make Blainmore what she is today—the pride of all its citizens. No other man in town has devoted so much valuable time and has worked so unselfishly for the general good of all as the retiring mayor.

Three years ago when the first village council was formed, Mr. Frayer was elected chairman which position he has truthfully and conscientiously filled ever since. His administration of the affairs of this town has met with general approval and no person has ever laid down the gavel and retired from civic office with a better and cleaner record behind him than Mr. Frayer.

About six years ago Blainmore had its first school board, and as it was necessary to have on that board some of the best citizens, some who would take a deep interest in educational matters, Mr. Frayer was one of the three elected and ever since that time he has been a member of Blainmore school board. The interest which Mr. Frayer has taken in other matters that have tended to improve the town in which he has chosen to make his home, has been very noticeable and the citizens owe him a deep sense of gratitude for his untiring efforts in building up Blainmore and winning for her the title of "The El Dorado of the Golden West."

Rich Gold Find Made
by Newfoundlanders

What is declared to be the richest gold find since the days of scattered pockets in California, was made by two men who have just returned to St. John's, Newfoundland, in the small steamer Kite, from a voyage to Northern Labrador and Baffin's Land.

The men, Richard White, of St. John's, and R. E. Elmley, of Ottawa, chartered the steamer three months ago, ostensibly for a trading voyage. They returned with five tons of mineral which they declared at the customs house. The mineral was enumerated as gold quartz, placer gold, iron, mica, plumbago, porphyry, dolomite, thuyolite, labradorite and chert. One member of the steamer's crew exhibited a three-ounce nugget of almost virgin gold.

The men refuse to discuss their discovery.

Happiness in marriage depends not so much on whether or not a woman holds high ideals, and how she does her duty, as on whether or not she can keep a servant, and how she does her hair for breakfast.

"BOBS" AGAIN
In the Police Docket.

In the police court on Wednesday morning the case of Evans vs. Chestnut and May for alleged assault, came up for hearing before Justice Gresham. Evans is his evidence stated that on Monday night last he was set upon and beaten by Charles Chestnut and James May. Chestnut pleaded guilty to the assault and was fined \$10. The charge against May was dismissed as there was no evidence to prove the charge against him. It appears that "Bob" Evans, whose face is as familiar to the people of The Pass as the majestic Crow's peak, was parading the town on Monday night and announcing through the medium of a gramophone horn the import ant (?) fact that James Peden and James May were going to work next morning, whereupon May, who overheard the call and was in company with Alfred A. McKay and Charles Chestnut, followed Evans and asked why he was making use of his name. Chestnut grabbed the "megaphone" from Evans and after administering a gentle kick the instrument conveyed its music towards Sam. In his house on State St., and it has been quiet ever since. Bob was then served with a gentle left hander on the cheek that landed him on the grass where deliriums told him that May's feet were making use of him as a "drum." Bob rose and wended his way to the police station, the rescue home for noise makers, where he laid charges against the accused, but he, too, has been quiet ever since.

This Juvenile Bostonians

The cleverest youngsters before the public today are the Juvenile Bostonians who will appear at the Opera House, Blainmore, on Friday Oct. 20th, in that delightful musical affair "The Rose of Blandford" a story of romance and adventure in song. The Juvenile Bostonians hardly add an introduction for they are among the best known of the first class attractions and besides they have the distinction of being the only juvenile organization of the kind in this country. The company is composed of young ladies of the sweet age, the oldest being but eighteen. Of course there men connected with it, but they are the managers or the stage crew. The direction is in the hand of Mrs. E. Lang who has been making a success of it for eight years. In fact she organized this company with some of its present members when they were only eight years old. Mrs. Lang has turned out a round half dozen of stars from her company and she says that there are twice that number in The Juveniles this year.

These stars-to-be will be heard of within a few years. It seems that the company will make a tour of the east next year including Broadway and if any new talent for stellar honors escapes the eyes of the Broadway managers they are not showing their usual sagacity.

Among the principals of the company who are counted among the future stars are Miss Rose Henry, Miss Doris Canfield, Miss Dixie White, Miss Thoin McEllen, Miss Kate Neil, Miss Ethel Stoddard, Miss Ruby Westering, and Miss Daisy Henry. There is a beauty chorus of 20 girls of the sweet sixteen age. Congrave and Lang are the managers.

China faces an unprecedented crisis. With the spread of revolutionary activity opinion is gaining ground that the fate of the ruling dynasty hangs in the balance.

A separator belonging to Robert Hanna, of Stirling, was blown to pieces near Riley last week end. A stick of dynamite got into a sheaf of grain and into the separator, resulting in a terrific explosion. Fortunately, no one was hurt, but the machine was demolished.

New Geodetic Arc

All accurate surveys are based upon primary arcs determined by careful triangulation. Any arc of this kind of great future importance has been completed by the coast and geodetic survey. It extends from central Texas to a point near San Diego on the Pacific coast, a length of more than 1,200 miles. Not only will this arc be of utmost use in the survey of the regions adjacent to it, but it will also add valuable facts for the investigation of the true figure of the earth. There are now about 11,000 miles of primary triangulation in the United States. Probably no other branch of engineering is so remote as this, the engineers having to traverse all kinds of country, flashing their signals from hill to hill and from mountain to mountain, and enduring every vicissitude of weather and climate.—Youth's Companion.

The most obstinate cures and warts fail to resist Boleyn's Corn Cure. Try it.

The reason to many men get married is because they are too tender-hearted to refuse.

Stops a Cough Quickly

—Even Whooping-Cough

Sixteen Ounces of the Quickest, Surest Cough Remedy for 50c. Money Refunded if it Fails.

If you have an obstinate, deep-seated cough, which refuses to be cured, get a 50-cent bottle of Pinex, mix it with home-made sugar syrup and start taking it inside of 24 hours your cough will be gone, or very nearly so. Even whooping-cough is quickly conquered in this way.

A 50-cent bottle of Pinex, when mixed with home-made sugar syrup, gives you 16 ounces—a family supply of the finest cough remedy that money could buy, at a clear saving of \$2. Very easy to prepare—full directions in package.

Pinex soothes and heals the inflamed membranes with remarkable rapidity. It stimulates the appetite, slightly laxative, and has a pleasant taste—children take it willingly. Splendid for colds, influenza, bronchitis, throat tickle, chest pains, etc., and a thoroughly successful remedy for incipient lung troubles.

Pinex is a special and highly concentrated compound of Norway White Pine extract, rich in quinine and other healing pine elements. It has often been imitated, though never successfully, for nothing else will produce the same results. Simply mix with sugar syrup or strained honey, in a 16-ounce bottle and it is ready for use.

Anyone who tries Pinex will quickly understand why it is used in homes in the U. S. and Canada than any other cough remedy. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is wrapped in each package. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

This fault is common to all singers, that among their friends they are never inclined to sing when asked, but unasked, they never desist.

Simple and Sure—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

The office at the police station. Inspector (in desk)—What's your name?

Prisoner—Patrick McSweney. What countryman are you?

An Irishman. What's your business?

An Italian organ grinder.—Tit-Bits.

Minard's Liniment cures burns, etc.

"Jane" said a lady rather sharply to her cook, "I must insist that you keep better hours and that you have less company in the kitchen at night. Last night you kept me from sleeping because of the uproarious laughter of one of your woman friends."

"Yes, mum, I know," was the apologetic reply, "but she couldn't help it. I was a-telling her how you tried to make a cake one day."

LEPROSY IN INDIA.

The "Untouchables" Reach the Lowest Degree of Human Woe.

The "untouchables" of India reside in little huts made of palm leaves or mud, without windows, and with a single doorway, usually so small that even a child must stoop in order to enter it, containing absolutely no furniture, except a few rudely baked earthen pots and pans.

Generally there is no bedstead of any kind, the whole family sleeping buddled up on the bare dirt floor, which is commonly plastered with cow dung. A few rugs cover their persons, and these are worn night and day.

Their financial condition precludes eating more than one meal a day, and this oftener than not is far from hunger appeasing and is seldom calculated to appeal to the palate. For this wretched existence they must work hard and long hours.

On account of the filthy condition in which they live disease is rampant among them. According to the latest census, eighty-eight out of every 100,000 people of the depressed classes are afflicted with leprosy. In the matter of education they are deficient as they are in every other virtue.

According to the report of the director general of public instruction of Bombay, barely five out of 1,000 of the pariah children of the presidency of school going age attend school.

In one word, these fifty-three odd millions of Hindus are not only socially but also intellectually, physically, financially and morally submerged.—Saint Nihal Singh in Southern Workman.

Minard's Liniment relieves neuralgia.

"Have you no friends to help you?" "I have, mum, but they sort of bunch their gifts. I get six turkeys Christmas and nothing during the rest of the year."—Pittsburg.

The Real Liver Pill—A torpid liver means a disordered system, mental depression, lassitude and in the end, care be not taken, a chronic state of debility. The very best medicine to arouse the liver to healthy action is Parmenter's Vegetable Pills. They are compounded of purely vegetable substances of careful selection and no other pills have their fine qualities. They do not gripe or pain and they are agreeable to the most sensitive stomach.

To whiten wooden floors add two table-spoonsful of paraffin to the hot, soapy water used for washing a floor. It will cleanse the boards and will also destroy any insects that may be lurking in the cracks of the wood.

"In the Canadian districts the northwest mounted police regulate the treatment of horses on the freight wagons and stage lines in a most inhuman manner, so as to prevent them from suffering in this way."—Washington Herald.

Slavery lingered in the Scottish mines until the very eve of the nineteenth century. Mr. Blackwood, in "The Good Old Times," draws a picture of the Scottish miner's unhappy lot in the past: "From about the year 1440 until 1775 the miners of Scotland were bought and sold with the soil. It is stated in old chronicles that bloodhounds were kept to trace them if they left their employment and to aid in bringing them back. By statute law miners were bound to work all days in the year except Paschal and Tule, and if they did not work they were to be 'whipped in the bodies for the glory of God and for the good of their masters.' Not until 1775 was the first law passed in an attempt to better this state of things, but it was 1790 ere the law gave the working miner of Scotland his complete freedom."—London Chronicle.

The Word "Tense." "Tense" is a word that has an understood meaning nowadays. Shadwell in the fourth act of "The Humors" (1671) put this question into the mouth of one of his characters: "Must I stay till by the strength of terse claret you have wet yourself into courage?" It is probably an allusion to what is still sometimes called "Dutch courage"—bravery inspired by alcohol. Claret was in those times imported in "terces," and "terse" may be a condensed form of that word; also "terse claret" may have been a drink that did its business without any circumlocution, like the terse speaker or writer.

Circular Plates. All our plates are circular in shape. Now, a square or oval plate would be just as convenient, is there any reason why plates should be of their present shape? It seems that if we dip into the far past we may discover the reason. Our remote ancestors ate their food off flat pieces of wood cut from a tree trunk. The tree trunk being cylindrical in shape, the earliest plates were therefore roughly circular, and the shape has been used ever since.

Taking Her Vow. Miss Eldorad (triumphantly)—Just think of it! At the ball last night I listened to five declarations of love. My friend—How mean of you, Alice! Who was the pretty girl you were sitting near?—Boston Transcript.

MUNICIPAL NOMINATIONS

Candidates Named For Mayoralty
and Councillorship of The
Town of Blairmore

WEDNESDAY, OCTOBER 25 TH

Is The Day Appointed For Election
Of Men To Handle Our
Municipal Affairs

Mr. Thos. Frayer, who has been appointed by the government to act as returning officer in the Blairmore town elections, has issued notices calling for a meeting of the electors of the said town to be held at Budd's hall, on Wednesday next, from 10 a.m. until noon, for the purpose of nominating candidates for the office of mayor and six councillors. If there are only the necessary number of candidates nominated they will be declared elected by acclamation, the mayor to hold office until the end of 1912, the first three councillors nominated to hold office until the end of 1913 and the latter three to remain in office until the end of 1912. But if there are more than the required number of candidates nominated, an election will be held on Wednesday, November 1st and the three successful candidates for councillor, polling the highest number of votes will be allowed to hold office until the end of 1913, while the other three elected councillors and mayor will have to relinquish their honored positions on December 31st, 1912.

Up to going to press the fight has not become very hot and we would like to see an election by acclamation. Capt. W. A. Beebe, who is the largest property owner in the town, who is one of the oldest citizens and who has done considerable towards advancing the "Hub of the Pass," is considered by many of the intelligent electors to be a suitable person to occupy the position of mayor and he will be nominated as the first mayor of the town of Blairmore. Dame Rumor says that Arch. McLeod and H. E. Lyon, both of whom are well and favorably known in town, may be candidates for the mayoralty. The names which we selected a few days ago as probable candidates for councillors were: L. Dutil, D. A. Sinclair, John McPhail, S. Berry, F. W. Doubt and J. G. Smith, who, since we put our thinking cap on the following have been spoken of as desirable persons to occupy chairs in the new council: R. M. Brisco, L. P. Roberts, C. Hiscocks, Mike Rosse, J. H. Farmer, R. C. Green, T. Ede, Charles Chestnut, H. J. Matheson, Frank Greco, E. Morino, A. A. Sparks, D. C. Drain, Isaac Loughed, J. F. Bradley and Robert Evans. We are sorry that it is impossible to elect all those worthy citizens whose names appear above, but we know that some are not aspiring to such honors and are willing to sit back and give the others a chance. It is up to the electors to glance over the above list of names carefully and use their best judgment in selecting worthy persons to conduct the important affairs of this promising town. If we have left out the names of any whom you would like to see become mayor or councillor, don't be offended but name your man. There's room on the slate for more. The man who is resolved to be something in the world should have nothing to fear, and when he little dreams of it, honors are gathering about his head and an influence goes out from him, which is exerted silently but surely for the good of thousands.

Another Substantial Building for Blairmore

E. Morino has a gang of masons and bricklayers at work on a store which is being built for Joseph Bado. The building is being erected on Victoria street between Seventh and Eighth avenues and will have an imposing effect. The building will be twenty-five feet wide, fifty-six long and will have large basement. It will be occupied by Mr. Bado where he will carry on a general merchandise business. The building will be a credit to Blairmore and will correspond with many of the other creditable buildings which have recently been erected on our busy thoroughfare.

Bachelors Should be Taxed

The last regular meeting of the Guild, held on Monday evening last took the form of a debate. "Resolved that Bachelors Should be Taxed." The affirmative was taken by F. E. Hinds and J. S. Murray while J. D. S. Barrett and R. M. Brisco took the negative side. F. E. Hinds was the first speaker and upheld his side in an interesting manner and showed how "useful" the married men were to the town in which they lived in particular and to the whole country in general. J. D. S. Barrett was the next speaker and defended the cause of bachelorhood. J. S. Murray, the second speaker for the affirmative, made several strong points in favor of bachelors being taxed and evidently made a strong favorable impression on the judges. R. M. Brisco, the second speaker in favor of the bachelors, made a great hit and presented several points which could not be refuted by the opposition speakers. F. E. Hinds was given five minutes for reply. The judges appointed were Rev. A. S. Tod, L. H. Putnam and J. G. Smith, who, after carefully considering the weighty arguments, gave their decision in favor of the affirmative side. On the 4th of December this same quartette will give a debate on "Resolved that Marriage is a Failure." The two married men will speak against wedded life and no doubt will give some valuable information.

A Coming Treat

Too much praise cannot be given Capt. Beebe for engaging the Schubert Symphony Club and Lady Quartette of Chicago to appear at Blairmore Opera House. This company is in its 20th year of success, and is acknowledged everywhere to be the most up-to-date musical company travelling. Everybody likes music and everybody enjoys a hearty laugh. A delightful blending of pure fun and fine music is one reason why the above company has won its way to the top notch of public esteem.

The man who is resolved to be something in the world should have nothing to fear, and when he little dreams of it, honors are gathering about his head and an influence goes out from him, which is exerted silently but surely for the good of thousands.

STRIKE STILL HOLDS OUT

Operators Holding Private Sessions

At The Rocky Mountain Sanatorium

NOTHING YET GIVEN OUT

More Cheerful Spirit Is Entertained
And Termination of Negotiations Anxiously Awaited

Although the coal miners strike is still unsettled everything is pointing to an early agreement between the operators and miners, and peace is expected to be ushered in at almost any time.

The union officials have held several conferences during the past week and the men have given in on several points, which, it is sure, will make their case much more acceptable to the operators, but there are still some things which the men and their employees do not agree on, amongst them being the "check-off" system and "discrimination." The former may possibly be given to the men but we do not hold out the least hope that the men will be granted both. The latter, if not both, will no doubt be rejected by the operators, and their action in this regard is sure to receive the moral support of those who have any regard for law and order and who wish to see the dominating and anarchistic spirit suppressed.

Up to going to press nothing definite can be learned outside of the fact that the operators held private sessions at the Rocky Mountain Sanatorium on Wednesday. However, it is evident that the men feel more cheerful; a more friendly spirit exists between the two contending parties; it is thought that arrangements are being finalized and that work will be resumed in a few days.

Oddfellows' Anniversary

Wednesday next will be the anniversary of the institution of a branch of the Independent Order of Oddfellows in Blairmore and the members of that baby lodge will celebrate its birth by giving a social in their hall on Victoria Street. Invitations have been sent to Pincher Creek, Cowley and Coleman lodges, and a large response is expected from these places and a hearty invitation is accorded every Oddfellow and Rebekah who may be within reach and yet not a member of the local lodge. An impromptu program will be delivered to that all and everyone will have an opportunity of adding some trifle of amusement and entertainment thereto.

What is a man's "Megaphone"

We overheard the expression a few nights ago that "Bob Evans was hit on the megaphone." We have often heard the term "month" used, but it's the first time we've known a man's weapon sashel to be called a "megaphone."
